Can Ford Come Back?

According to the November issue of Motor, Ford Sales lead the field by a large margin for the first 8 months of 1929. Ford made about 156,000 Passenger Cars in September, an advance of 74,000 over his mark for the month last year, while the rest of the industry made about 213,000, a decline of 80,000. Ford's proportion of the total was 42 per cent, whereas last year he made less than 20 per cent. in the same month.

Large production economies are always passed on to the public by the Ford Motor Company, as instanced by the recent price drops. If you will consider the many Ford car quality features you will agree that the value far exceeds the price.

Call and visit our Service Department, and see the many improvements being made in order to give the Ford owner prompt, courteous, economical service.

ITEMS PICKED UP AROUND THE CLUB

Well, winter is here. The curling club have had their annual meeting; the hockey club have not yet organized; Santa Claus is giving his spiel over the radio; the kids are doing their best to be good; Uncle is getting in his Christmas cheer—everything points to winter and the near approach of Christmas.

According to all reports they had a good fight card at Lethbridge last week. Our old friend Billy Drain gave a good account of himself although he got a "bum" decision.

The boys are running a series of whist and bridge tournaments followed by dancing in their assembly hall. Eats will also be served. They propose running these every two weeks and hope for bumper crowds.

Bill was telling the boys he had something loose in his car the other night. And so the story grew. Oh, yes.

Cousin has not yet returned from "Lapland." Guess the Eskimos must have adopted both he and Uncle. God help the poor heathen.

Jock's new car runs fine—backwards. Oh yes, we saw you.

Well, we have no more news this week so will sign off, and hope to see you all with lard in your hair next Wednesday night.

RED CROSS NEWS

Miss Florence Rushfeldt spent a few days in Calgary last week.

Mr. A. J. Flood spent a few days in Edmonton on business.

Mrs. John Fulton and Mr. George Fulton spent the week end in Calgary. Mrs. Melvin Fulton and Kenneth spent a few days in High River last week.

The regular meeting of the Red-Landview Women's Institute was held on Wednesday, November 6 at the home of Mrs. Leslie Richardson. In the absence of Mrs. Snow, Mrs. Stanger took the chair. Mrs. McKinnon gave a very interesting paper on the activities of the Women's Institutes in Scotland. Mrs. Richardson then served a dainty lunch.

Complimenting Miss Florence Rushfeldt, a miscellaneous shower was held at the home of Mrs. Jake Eamonn on Monday evening. Cards and games were played and a dainty lunch was served at midnight by the hostess. After lunch the guest of honor was presented with many beautiful presents. A very pleasant evening was enjoyed by everyone.

"Ham" Johnston has purchased the livery barn conducted for many years by Mr. R. E. Dodds. "Bob" will stay in Vulcan for a while and will subsequently join his wife who has moved to Edmonton.

LADIES' CURLING

The annual meeting of Vulcan Ladies' Curling Club will take place in Mr. A. J. Flood's office on Tuesday, November 26, at 8 o'clock in the evening. All members and any ladies desiring to join the club are particularly requested to be present.

KIRKCALDY W. I.

The Kirkcaldy Women's Institute met at the home of Mrs. Joseph Myers on Thursday, November 14th. The meeting opened by community singing then followed by the creed. A short business session was then held. Roll call was answered by each member making up a rhyme and some very good ones were given. The rest of the afternoon was contests and singing. A dainty lunch was served by the hostess. The next meeting will be held at the home of Mrs. A. J. Maisey on Thursday, November 28th. Planning of Christmas pie will be held.

Mr. Harold Stuckey who now resides in Pincher Creek has been visiting in Vulcan this week.

PLEASANT FUNCTION AT LOCAL MASONIC LODGE

On Tuesday evening the Vulcan Masons gathered in large force to celebrate the raising of the one-hundredth member in the local lodge, and the annual roll call. Most Worshipful Grand Master Canoe Middleton was present as a guest of the evening and delivered a stirring address on "The Hundredth Man". The Calgary Masonic Quartet was also present, and delightfully entertained the brethren.

After degree work was over, Rt. Wor. Bro. Galbraith, on behalf of the Past Masters, presented the lodge with a set of working tools, after which the annual roll call took place, during which letters were read from practically all absent members from all parts of the continent and all members present responded to their names. Refreshments was next in order, and consisted of a splendid turkey supper, after which the following toasts were honored and a program presented: King and Craft, proposed by Wor. Bro. Butchart, response: God Save the King; Grand Lodge of Alberta, proposed by Rt. Wor. Bro. Dr. G. M. Carson, response by Most Wor. Grand Master Middleton and Rt. Wor. Bro. Howes, D.D.G.M.; Our Visitors, proposed by Rev. Bro. Brunton, response by Very-Wor. Bro. Geo. Ellis, Calgary and Bro. Dr. M. C. Burke, address by Most Worshipful Grand Master Canon Middleton; musical number by the Calgary Masonic Quartet; speeches and numbers by the members, followed by various numbers by the Calgary Masonic Quartet; Junior Wardens Toast, and Auld Lang Syne.

This ended a never-to-be-forgotten night in the history of Vulcan Lodge No. 74.

LOCAL ITEMS

Look at the next page for the big sale of Household Furniture.

St. Aldhelm's W. A. will hold the annual Christmas Bazaar on Saturday, Dec. 7.

On a cold morning proves REGAL GASOLINE.

Miss Millicent Lawlan, L. R. A. M., of Calgary, spent Thanksgiving Holiday with Mr. and Mrs. Roy Walker.

Have you looked at Pete McAskile's window display of Christmas Goods for the man? It sure is a wow!

Mr. J. Naumsmith of Victoria, B. C. a former Vulcan merchant, is in town this week.

The Ladies Circle of the Church of Christ will hold a Bazaar in King's Drug Store on December 14th.

Mrs. James Marshall entertained at luncheon in honor of Mrs. A. E. Cross of W. A. Calgary, Mrs. F. E. Grevelt, and Mrs. Herb Akitt both of Calgary.

K. R. McLean, of McLean & Anderson, Sight Specialists, 224 8th Avenue West, Calgary, visits the King Drug Store Saturday, November 23. Make appointments at Drug Store.

Friends of Mrs. H. W. Johnston will be glad to know that she is making a satisfactory recovery from her recent from her recent operation in the Calgary General Hospital.

"Ham" Johnston has purchased the livery barn conducted for many years by Mr. R. E. Dodds. "Bob" will stay in Vulcan for a while and will subsequently join his wife who has moved to Edmonton.

UNITED CHURCH NOTES

Rev. J. N. Brunton will conduct the usual services on Sunday morning and evening, at 11 and 7:30; also Berwyater at 2 p.m., and Red Cross at 3:30. Everybody welcome.

BOYNE SCHOOL RESULTS

The following are the results of examinations written by pupils of Boyne school:

Grade IX—Neal Zahnd, 80. Grade VIII—Joyce Clark 53; Althea Gonyea, 87; Marie Gonyea, 87; Leslie Clark, 85; Kenneth Galloway 83. Grade VII—Robert Galbraith 81. Grade VI—Robert Gonyea 80; Lloyd Jones, 66; Wylie Galloway 62. Grade V—Harriet Gonyea 90; Douglas Galbraith 82; Darrel Galloway 76. Grade III—Harshaw Galbraith 96; Eileen Clark 80; David Gonyea 60.

Mr. A. Graham, now a resident of Calgary, was a Vulcan visitor last week.

Vulcan Curlers Organized for the Coming Season

Foothills Curling Association Bonsel will be held in Vulcan

The annual meeting of Vulcan Curling Club took place on Friday of last week in the municipal office, with a fair attendance of members present.

Following officers were elected for the forthcoming season: Hon. President, Clyde S. Hall, Vancouver; President, Frank C. Keiver; Vice President, Ernest King; Secretary, D. D. McQueen; Executive committee, A. G. Dickinson, Jack Marshall, H. Sutherland, F. M. Anderson and Alex. Clark.

Draw committee—A. J. Flood and R. L. Elves. The executive desires it to be known that there is always room for new curlers; and intending players are advised to see one of the skips as soon as possible.

A good season's play is confidently looked for, and the fact that the Foothills Curling Association's bonsel will this year be held in Vulcan will assuredly add to the interest in the game; this event will probably take place the week previous to the Calgary 'spiel, and a committee is already busy making arrangements for the same.

At the local rink work is under way for making ice, and if the present weather continues the Vulcan enthusiasts will very soon be at the 'roarin' game.

ITEMS OF INTEREST FROM VULCAN DISTRICT

Mr. and Mrs. E. Army were Calgary visitors over the week end.

Miss V. Walstrom of the telephone staff spent last Monday in Calgary.

Miss Kathleen Stack underwent a minor operation in Holy Cross hospital in Calgary, on Tuesday morning. Mr. W. McIntyre who has been home for two weeks, is operating the depot at Coleman.

Mr. and Mrs. Alvin Jacobson and Miss Lily Thompson spent Sunday and Monday with friends in Bow City.

Mr. W. Williams of Condo, North Dakota, is visiting in Vulcan with Mrs. E. Army, his cousin.

Mr. W. Phillips and family moved on Sunday to Black Diamond where they expect to reside in the future. Delco light and power plant for sale cheap. Apply phone R507, Vulcan, Nov. 21-3-p.

The regular meeting of Vulcan Lodge, R.P.O.E., will take place on Monday evening next at the usual place and the usual hour.

Last Thursday an enthusiastic meeting of the Wheat Pool was held in the I. O. O. F. hall under the chairmanship of Mr. J. Dann of Reid Hill.

Mr. and Mrs. F. Clive and daughter Erma, spent last week in Calgary. Mrs. Clive remained there for another week.

The dance held last Friday night in Champion, was largely attended by Vulcan people who reported a wonderful time.

Mr. and Mrs. T. Love left Tuesday for Colorado, Saskatchewan, where they will spend a few weeks with Mrs. Love's sister.

Miss Eloise Cline underwent an operation for appendicitis in General Hospital in Calgary, last Monday. She is doing well according to the last report.

Last week the annual district meeting of the I.O.O.F. lodges took place in the hall here. D.D.G.M. McQueen presided, and district secretary Craig was also in attendance. An enjoyable program with addresses, concluded a delightful evening. The next district meeting will be held at Carmangay.

Alberta elections is predicted for next June. It is also stated that a plebiscite on the question of abolishing the sale of beer in licensed premises will probably be taken when the U. F. A. goes to the polls. The "drys" are organizing with the object in view and they will attempt at next session to have the government propose a vote on the question.

FIRE PREVENTION

In the recent essay competition on the above subject the following awards have been made by Captain Smart of the Calgary Fire Department:

High School, first: Dorothy Noble. High School, second: Walter Ottewill. High School, third: Gwen Almond. Public School, first: Edna McPherson. Public School, second: Mervin McIntyre. Public School, third: Orine Tuttle. We hope to print the prize-winning essays at a later date.

Prizes awarded by the town, the school board, and four individuals have been presented by Mayor Butchart to-day.

To Parents and Children

The Town Authorities wish to notify the above that the practice of hitching sleighs behind cars and wagons can only result in bad accidents.

W. E. BUTCHART, Mayor

LEGION WILL ENTERTAIN

Social functions under the auspices of the local branch of the Canadian Legion, B. E. S. L. have always been popular in Vulcan, and the series of court whist and bridge tournaments, (non-progressive) arranged for every other week, commencing November 27th, will not be the least pleasing presentation of this organization.

Prizes will be presented to both ladies and gents in each event, and special awards will be made for aggregate scores at the end of the series.

On each evening there will be a dance from 9 to 12 p.m.; lunch will be served in the building, and the admission is only \$1.00 per couple. We predict that this will be an important feature of the social life of the town during the coming winter.

BLACKIE PASTOR FOR TURNER VALLEY

The Presbytery of High River met last week in High River and the interim settlement committee confirmed the selection of Rev. G. H. Peacock to Turner Valley, succeeding Rev. Dr. W. A. Lewis who died some two weeks ago.

Rev. Mr. Peacock has been stationed at Blackie, but resigned to take the new work, and carry forward the plans so well begun by the late Dr. Lewis. He will take charge the first Sunday in December.

Rev. G. G. Webber, secretary for the Lord's Day Alliance, addressed the presbytery on the task of Christian education in regard to the use of Sunday. Mrs. L. C. McKinney spoke on the need and possibilities of temperance education. The W.C.T.U. is sponsoring a movement for "the mobilization of total abstinence opinion."

Rev. A. Ragnie was appointed interim moderator for the Blackie charge.

A letter of sympathy was sent to Mrs. Lewis on behalf of the presbytery, in the death of the late Dr. Lewis.

LOCAL ITEMS

Messrs. I. and M. Jacobson are Calgary visitors over the week end.

The Advocate, tenders thanks for a tasty meal of venison donated by local big game hunters who secured a fine bag in the locality of Rocky Mountain House last week.

The regular meeting of the Protestant Woman's Federation will be held in the United Church school room on Tuesday next at 3 o'clock. Subject: "Mormonism."

You must soon start thinking of Overseas gifts, and Christmas cards should be ready to mail very soon. Get them this year at the Advocate office. Printed to your order or in blank as you want them.

The ladies of the Vulcan W. I. wish to thank all those who so willingly purchased poppies during the Armistice celebration, and those who assisted in different ways to make the drive the success that it was. The amount realized was \$108.25.

Miss Loreen McKay, daughter of Mr. and Mrs. Gordon McKay, of Reid Hill, is to be congratulated on winning the silver medal for bandaging at Holy Cross Hospital, Calgary. Although Miss McKay has only recently completed her period of probation she was able to secure this distinction with 98 efficiency.

DONALD CAMPBELL DEAD

General regret was felt when the death of young Donald Willard Campbell became known, and much sympathy was expressed with the sorrowing parents and relatives.

The lad, who was nine years old, and the younger son of Mr. and Mrs. W. D. Campbell of town, died on Tuesday following an operation for appendicitis.

The funeral will take place on Friday at 2:30 p.m. from the United Church.

CHURCH OF CHRIST NOTES

We had a fine attendance both morning and evening last Lord's day to hear the boy preacher who brought two inspiring messages. Loren Cole is a youth with a wonderful personality backed up by a true conviction on the simple gospel of the New Testament. He is able to quote scripture by the chapter, giving a reading of 86 chapters as part of his discourse, all from memory, this being an introduction to the sermon following. We look forward to having this fine example of Christian youth with us again.

The bible school Christmas tree and program will be held Monday evening, December 23rd. Keep this date in mind.

Services for Sunday, November 24: communion 10:30, morning message following "The Secret of Riches"; Bible school 11:30 to 12:30; Christian Endeavor 7:15 p.m.; song service 8 o'clock, after which will be given a chart lecture on the proper divisions of the scripture. Welcome to our mot to.

WHEN WOMEN SHOP

Some very interesting observations were made recently in London by C. B. Pinnell, advertising manager of one of the largest stores in the metropolis. This authority finds the average woman shopper amazingly fond of window-shopping, a very careful spender—except where hats are concerned and an exceptionally keen judge of value.

The woman of twenty dresses for show, Mr. Pinnell thinks. The woman of forty dresses for comfort. There are two classes of women shoppers—the woman who knows exactly what she wants and goes into a store and asks for it; and the woman who wants something, but has no idea what, and just waits for the assistant to make up her mind for her. Undoubtedly, he thinks, women are more difficult to serve than men. A woman generally has only a certain amount of money, and with it she has to buy everything for herself and her house. Therefore she is out to get as much as she can for her money, except when she is buying a hat. She buys a hat because she thinks it suits her and the price is a secondary matter.

Pinnell also paid a real compliment to the modern woman's knowledge of values. The woman shopper of today, he says, knows the value of a piece of material almost as well as the expert storekeepers themselves. As for the business of window-shopping, he thinks women will never tire of it. And most of the mere men of our acquaintance will agree with him.

DEMAND FOR FLAG

Dr. Anderson of Saskatchewan, in stating his intention to have the Union Jack flown on all public schools in Saskatchewan, offered his opinion on the proposal that Canada should have a national flag flag. Dr. Anderson is against it.

This is not a party issue in Canada and no one wants to make it one. When Dr. Anderson speaks of it, he speaks as a citizen, and not as leader of the Conservative party. Still, his rank as a citizen adds weight to his opinion and on this account it seems necessary to say that he does not speak for a majority in the province. No plebiscite has been taken, but to discover the feeling of the citizens is only necessary to observe the decoration they use on Dominion Day and other national occasions. The flag they fly is the red ensign with the Union Jack in the upper corner and the Canadian coat of arms in the field. This is not a Canadian national flag, but it looks like one and those who display it regard it as such. Could there be a clearer proof of the need and demand for a Canadian flag than the nearly unanimous display of this merchant marine ensign on Canadian holidays?—Saskatoon Star Phoenix.

DEATH ENDS NOTABLE CAREER

Tay Pay O'Connor, father of the British House of Commons, died on November 18 at the age of 81 years. He was cheered in his last moments by the blessing of the Pope and a message of sympathy from King George. He was active up to the time of death. In 1921 we had the honor of meeting the late Mr. O'Connor at London and to meet him was to admire him. He was an author and journalist and his witty comments on important topics were reproduced in British newspapers. His geniality won him many friends.

CHEV. ENGINE IN AIRCRAFT

Are we to have Chevrolet engines in aircraft? According to an item taken from a popular October bulletin giving the results of the National Air Races held in Cleveland from August 24 to September 2 of this year, we find that a low-wing travel air monoplane powered with a Chevrolet six cylinder motor driven by a C. E. Clark, reached a speed of 113.88 miles per hour, finishing third place in the 25 mile closed course event. Needless to say this accomplishment was one of the high lights of the races.

BUY A TICKET

The season approaches when various organizations in the town will be setting forth round the town to sell tickets in aid of "their own pet charity." As a rule townspeople respond very genially to these numerous appeals. A man may not feel particularly interested in the cause which is being promoted today. But, on the other hand, he knows that tomorrow or next week either he or his wife or his children will probably be urging support for their special weakness. So, as a rule, he digs down and buys a ticket regardless.

However, there is one point in this connection that might be improved upon. Ticket selling might be conducted on a more methodical basis, with less overlapping. Too often, one part of the town is canvassed to distraction, while other parts escape without a touch.

The down town section usually gets its full share of attention. If a man can afford to buy, he usually does so on first approach, and intermittent urging makes him no more amenable. He buys a ticket the first day, but that does not make him immune. For succeeding days and until the event is over he must stop work repeatedly to smile and bow and say: "No, I've already bought, thank you."

Now, on the executive of almost every society, is some individual with a flair for organization. If he could take the matter over, and work out some zone system, distributing his salesmen so that every citizen might be approached once and once only, he would save valuable time for many busy people and dispositions down town would be greatly improved. Certainly quite as good results would be attained.

The McIntyre Ranching Co. of Magrath will show a bunch of their cattle at the Royal Show at Toronto.

OPPOSE TRACKWAY BILL

Speaking of the Trackway Bill, providing for a paved highway to Banff, which was defeated at its second presentation in the house last session, a member of the Legislature says that the majority in the house felt the tendency of the bill was against public ownership, and that the people would not take kindly to toll gates. He said there was an uncertainty about it as a business proposition, and it might possibly revert to the government. The statement was made that some areas now depopulated in the United States where big programmes of hard road construction had been carried on, had piled up a taxation of more than \$2.00 per acre.

PAPER PROFITS

A correspondent of the New York Times suggests that the decline in stock values is not all loss as some seem to imagine. A great deal of stock does not go on the market at all whether values go up or down, so a paper profit if followed by a paper loss does neither good nor harm to the holder. It reminds the correspondent of this story:

"A farmer told a neighbor that Josh Stebbins had offered \$200 for his horse.

"Josh Stebbins ain't got \$200."

"Yes, I know; but ain't it a good offer?"

Here lies the body of William Jay Who died while having his right of way;

He was right, dead right, as he sped along, But he is just as dead as if he'd been wrong.

NEW INDUSTRY—NEW LIFE

Shipments of sugar beets to the Raymond factory this year will exceed 1000 carloads, says the Lethbridge Herald. That will be about 50 trainloads of the branch line average. In addition many carloads of limestone, coal and other commodities have been transported to the plant. The result is that many railways have had work furnished to keep them busy during the beet harvest. There will be 15,000,000 pounds of sugar to be shipped from the factory during the coming year, and that will provide other traffic. Thus does a new industry put new life into a district.

The first party of Mormons to enter Alberta came from Utah in 1886 where they organized a "Stake of Zion" in Canada under the leadership of President Card, who founded the city of Cardston, near the international boundary. These settlers became successful farmers and raisers of beet sugar through the systems of irrigation established by them. According to the census of 1921 there were nearly 20,000 Mormons in all Canada, more than half being in Alberta, where they have erected a million-dollar temple.

BOYS—GET A TRADE!

"Boys, get a trade," is the advice being given by the Renfrew Mercury. As argument it produces the numbers of men out of work in cities and the consequent distress. Further comment adds: "Much of the trouble of finding work for many of the immigrants who come to Canada, rises from the fact that most of them come from the ranks of unskilled labor. They are willing, but fitted only for casual employment. This situation drives home the necessity of having a definite objective in choosing a vocation. If such a course were pursued by every young man, the unemployment problem would be less acute."

Many youths rush to work which promises sudden money, rather than contenting themselves with smaller wages while they are mastering some trade. Even to the young man who intends to enter a profession, it is a strong weapon against the world, for him to be able to take his place amongst recognized tradesmen.

RAISE WOOL QUALITY

A survey conducted during 1928 in the western provinces, established that when Rambouillet rams are used for several generations the length of wool has a tendency to become shorter, and the continuous use of these sires, leads to heavy mortality of young lambs. Practical work, undertaken to better the quality of wool and to correct conditions in sheep raising is being conducted at Lethbridge station and at Alberta University. The breeding program aims at the development of a new breed of sheep, or at least a superior quality to those generally used.

SONG HITS IN MOVIE

With the introduction of theme songs in the movies, the phonograph record business gets a boost. If people hear a song at the theatre which strikes their fancy, they immediately go out and buy the record. The Pagan Love Song, had a big run in town, as a result of the picture "The Pagan" which was shown here recently. This practice is reminiscent of old comic opera times, when for days after a popular opera had been in town, every newsboy whistled the catch tune and every piano flaunted a copy of the music.

MAYOR IS TOLERANT

Toronto University students lately decided by overwhelming majority that Toronto had fully earned its reputation as an intolerant city. The Mayor took the criticism up, and to prove his own vast tolerance demanded a re-organization of the entire University faculty, in order that the institution might turn out "boosters and not knockers."

He has a strange way of proving that they are wrong. But it is after all, a Torontonian way?

R. 49 WHEAT

R 49 is the name given to a new wheat, the results of years of experiments by the Canadian and Manitoba governments. It is hoped to have the long-looked-for rust resisting qualities and at the same time give a high grade quality to a satisfactory yield. No less than eighty-six strains have been used in producing R49. Its flour tests are also satisfactory. The grain, however, awaits further and even more severe tests.

Freed Radio

NOW FREED RADIO offers the greatest VALUE in a Quality Product since Broadcasting began.

Freed Radio has behind it a wealth of experience gained from practical work in manufacturing and research. When you examine a Freed Radio you see a product which has been tested and re-tested many times to insure perfection.

The Natural, Herbal Goodness Of Gallagher's Clears Up Eczema

Stops Indigestion. Tones entire system.

There are no mineral drugs in Gallagher's Tonic and System Builder. It is entirely herbs. Natural. Amazingly healing. By purifying the blood and gently stimulating bowels, kidneys and liver, this reliable old remedy clears up skin troubles. Perfect for indigestion, rundown conditions, nervousness, coughs or colds. Sets you on your feet and keeps you there. Sold, as other Gallagher's Herbal Household Remedies are, by

ERRETT KING, VULCAN

FATIGUE DANGER

Fatigue is a danger signal; if persistently ignored, it may lead to many kinds of serious trouble. It is necessary to differentiate, however, between what may be called normal tiredness and fatigue. We all get tired every day of our lives unless we are shirkers. The secret of efficiency is to learn to economize our outlay of strength so that we get the utmost return for it in good work without crossing the limit of exhaustion or even of unpleasant fatigue.

It is a known fact that it is wise to leave off work while we still feel that we could do a little more without hurting ourselves. We all know that we do our best work when we are fresh; that one hour in the morning is often worth three the afternoon. The lesson contained in that knowledge is valuable; we are wise if we quickly apply it to life. By carefully alternating work and rest we can keep ourselves to a great extent always fresh, and in that way we can accomplish much more work than can the chronic driver who continually breaks into his reserve capital of force.

The danger of fatigue is that it generates a poison that passes into the circulatory system; the problem is how to get the proper amount of work out of ourselves up to the point of healthy tiredness and short of the "fatigue toxins." One thing to avoid is monotony. A change in the character of work will often do as much good as a change from work to play. We never really stop work, however, until we go to sleep. Avoiding fatigue is especially necessary in the case of children. To do away with monotony the rule should be alternate periods of real study and of alternate play that will keep the children fresh and interested instead of inert and bored.

NORTHERN AIR MAIL

New Mail Route Pierces Far North, Linking It With the World

In November, a new link in the aerial mail services of Canada when the McMurray-Aklavik service is put in operation. The first mail leaves Edmonton, November 26, and is carried by train to Ft. McMurray where the sacks will be loaded on a Commercial Highways machine for twelve points of call along the 2000 mile route to the mouth of the McKenzie. A weekly mail service will be provided in winter months to residents at Chipevyan, Fitzgerald, Ft. Smith and Resolution. Hay River, Providence and Simpson will get monthly mail, while Wrigley, Norman, Good Hope, Arctic Red River and Aklavik will have three winter mail deliveries starting from Edmonton, Nov. 26, Jan. 21 and March 25.

This constitutes the farthest north regular mail service in the world. Heretofore winter service has consisted of two dog trains limited to 250 pounds of first class matter per train. The summer months will be of course, see much more frequent deliveries. British millers are accused of spreading propaganda, extremely unfair to Canadian wheat growers. They are trying to make the British public believe that their high bread prices are a consequence of the Canadian growers' insistence on a high price for their wheat. In reality they are stocked up with the cheap wheat of Argentine refusing to buy Canadian wheat, and still maintaining their high prices on flour—giving the impression that the exorbitant rates are due to the Canadian wheat prices.

The Canadians however, are unserving in their stand that the quality of their wheat, together with world wheat conditions make it quite fair that he should demand the price he does.

BIG GAME HINTS

Should be Observed by All Who Go Out to the Wilds

The Market Examiner with an eye to the welfare of man and beast, gives a few suggestions to the big game hunters who are roving the country at present.

There is no excuse even for the "buck fever" victim opening up a barage on a quiet cow or horse. Moose and deer do not wear white caps and parkas, nor do they walk upright.

Don't get the idea that you can't get lost. If you are lost in big timber, don't depend too much on the story of the moss growing to the north of the stumps. If you can see the sun, point the hour hand of your watch at it, and half way between the hour hand and twelve is south. If darkness catches you, stay where you are, light three fires 25 yards apart or fire periodic groups of three shots.

To dry wet boots, heat a few pebbles in a frying pan, and put them into the boots. Kerosene will soften boots. A handful of raisins in your pocket will keep you from getting thirsty and supply a little sustenance.

Study a map of the district in which you are hunting, the watercourses and landmarks. You'll need them. Lacking a map, find an old timer who will give you a rough sketch. Beware a wounded moose. He can kick. Stick round and let him die.

MERGE SCHOOLS

Minister Advocated Merging Raymond and Claresholm Schools at Lethbridge District

The farmers of the Claresholm district in session recently were distinctly opposed to the proposed transfer of the Agricultural School to Lethbridge. The provincial government was petitioned and as a result the answer came from the government that it was not desirable to change the status of the agricultural school in the province, and at present no further dormitories will be built.

The Minister of agriculture advocated that the schools at Claresholm and Raymond be merged into a central school at Lethbridge. He explained the whole idea emanated from him self. It was not a question of Claresholm but of the province and southern Alberta in particular. He predicted that under his proposed plan of co-operation between the Dominion and provincial governments that within ten years there would be developed at Lethbridge the finest school of agriculture in Canada, "bar none. Mr. Hoadley said there would be 600 acres of land for demonstration purposes and 300 acres for irrigation, together with the records of climatic conditions for almost 45 years.

It is said that there are no more serious consequences following the killing of a man in Chicago, than the killing of a rabbit in Canada.

"Now I wonder," remarked the nice old-fashioned lady at the dance; "I wonder whatever's become of the girl who used to drop her eyes, raise her face timidly and murmur: 'You'll have to ask papa.' " "She's got a daughter," answered the up-to-date matron, "who shouts: 'Shove her in to house, kid! The old man's gaining on us!'"

MINERAL SALTS GIVE HER TIRED HUSBY NEW PEP

"My husband took 2 bottles of Vinol. Now he has good appetite and more strength, pep and vigor than he ever had."

Doctors have long known the value of mineral elements iron, calcium with cod liver peptone, as contained in Vinol. Nervous, easily tired people are surprised how Vinol gives new strength, sound sleep and a BIG appetite. Gives you more PEP to enjoy life! Vinol tastes delicious.—Errett King, Druggist Vulcan.

SURE FOOD SUPPLY

Two years ago there was a famine in the far north. The Canadian Eskimo population, numbering about 5,000 souls, suffered intensely. Many died of starvation; more became so weakened because of lack of food that they fell prey to disease.

A few weeks ago the Canadian government took steps to solve the food problem of the far north permanently. This autumn a herd of 3,000 reindeer will take a two-year trek across 1,600 miles of mountainous territory, from a point on Bering Strait north of Nome, to the east bank of the Mackenzie river delta. There, in 1931, the Canadian government will take delivery of the animals, and the task of building up a food supply for the population of northern Canada will begin in earnest.

Somehow the Eskimo has got to be taught to be a herdsman. The difficulties of reforming the character of a primitive people are very great, and it is just possible, may be insuperable. The Eskimo, by nature, is a killer and not a conserver. As a rule he is not a waster, but the usual practice among Eskimos when game is plentiful, is to kill until their future needs are assured, and then to lay aside the implements of destruction and enjoy life. It is reasonably certain that if the government were to parcel out the 3,000 reindeer among the natives, every last animal would be dead within six months. A system of tuition in reindeer raising will have to be worked out. Probably the government will begin by taking the younger generation of the Eskimis and teaching them the business of raising and tending the animals.

WHEAT POOL

With the recent payment of a patronage dividend of half a million dollars by the Alberta Pool Elevators, the total of the elevator dividend during the three years of the operation of the system has reached over \$1,800,000. Alberta Pool has now 439 elevators operating in the province. The total storage capacity of these elevators is over sixteen and a half million bushels.

The new addition to the Alberta Pool terminal at Vancouver is practically completed. This addition will more than double the storage capacity of this terminal. The first wheat was transferred to the bins of this addition the first part of the week of November 11th.

During the month of October 1928 new members were signed by the Alberta Wheat Pool. The increase in membership of the Alberta Pool during the past 12 months has been 7,540. Total membership now is over 41,000.

NEEDS MOISTURE

Rain, according to recent reports is badly needed in Ontario. Although showers have somewhat relieved the drought in many districts, the parched condition of the soil has not been satisfied. In Eastern Ontario conditions are reported to be slightly better and plowing is going ahead rapidly. In Central and Western Ontario, however, the land is so hard and dry that fall plowing is difficult with tractor and almost impossible with horses. Many streams are reported dry for the first time in thirty years. Live stock generally is reported in poor condition with the milk flow much below normal. In some sections factories have already closed and whole milk distributors are finding it difficult to secure their requirements.

Canadian V.C.'s are on the way to England on the C.P.R. steamer, Duchess of York where they will be received by the Prince of Wales. The ship is captained by R. N. Stuart, V.C., D. S.O., and Premier Ramsay MacDonald is a passenger. These heroes will attend a famous banquet being tendered by the Prince of Wales. Alberta will have five representatives at the dinner.

RED CROSS SOCIETY
How Red Cross Dollars Are Made.
Records of Great Achievement

There is generally a special story
attaching to the money that finds its
way to the headquarters of the Red
Cross Society. The large donation of
often has a most interesting history,
and represents the united efforts for
weeks and months, or even the whole
year of the faithful and patient Red
Cross Workers in some small sewing
group that meets for the purpose of
working for the great fall event—the
bazaar.

Office records show many remark-
able achievements along this line and
the small town, disdained by the heed-
less passerby is often able to put to
shame the larger cities, in real ser-
vice, the type that counts.

Sums ranging from one hundred
dollars up, have been received at
headquarters, because several busy
women (and who can accomplish so
much for other people's needy child-
ren as the woman who has her hands
full?) have schemed, and planned af-
ter a really splendid entertainment,
which in its turn followed a truly ex-
cellent sale of work.

Gift sales, auctions, all such come
to the Red Cross net, when the local
committee goes a fishing. Tag Days
and membership drives that are repre-
sentative of much toil on the part of
self-sacrificing workers, all add their
quota to Red Cross funds.

The appeal of the crippled child and
other work finds a ready response in
most hearts, and poor indeed is that
district that cannot do something
once a year.

FOOLISH TO SELL

**Farm Board Chairman of Washing-
ton, Says Not to Sell Wheat at
Present Prices**

Chairman Legge of the federal
farm board says, selling wheat or cot-
ton at the present market prices is
"foolish."

The farm board leader's statement
was made when it was called to his
attention that wheat prices on some
exchanges had dropped below the lev-
el set by the board through its supple-
mental loans to co-operatives for ad-
vances to grower members.

"I don't think there is any danger
of wheat prices dropping below the
loan level for any length of time,"
the chairman said. "As a matter of
fact, it was only on certain exchanges
it took place and I believe this was
the result of the speculative interests."
Legge said only a small part of the
\$100,000,000 set aside for loans to
grain co-operatives actually had been
loaned up to the present time.

"I can't marry him mother. He is
an atheist, and doesn't believe there
is a hell." "Marry him my dear, and
between us we'll convince him that
he's wrong."

MINISTER OF HEALTH

Predicts Some Day Vaccination for
Tuberculosis Will Be Safeguard

Speaking at Claresholm prior to
the vote being taken on the Municipal
Hospital question, Hon. George Hoad-
ley, minister of health, said:

"Our great problem in this prov-
ince is to get hospitalization for the
people at a price they can afford to
pay and of the highest possible qual-
ity."

The minister of health went on to
speak of the accomplishments of his
department and the problems facing
him. Speaking of the sad cases at
Ponoka, he said he was accused po-
litically of 'not being sympathetic
enough. He declared that if anyone
was any more sympathetic than him-
self, they would be very unfortunate.
"Inside of ten years I predict that
you will find tuberculosis dealt with
in about the same manner as we now
deal with smallpox. Babies will be
vaccinated against the disease," the
minister continued. He told of the
discovery and value of a vaccine with
which his department had been ex-
perimenting with almost since it
came out.

"None of your taxes can give you
better results than in seeing that
every child in the province in physi-
cally and mentally fit," Mr. Hoadley
said.

"I have been accused of approach-
ing state medicine. I have never
moved toward state medicine and it
will never come into this province un-
less the medical profession fails to
make the skill and science of medi-
cine and surgery available for the
great mass of the people who are
poor," Mr. Hoadley declared.

Mr. Hoadley offered strong defence
of his sterilization bill. He said he
was the first man who ever introduc-
ed and thought behind this bill in the
British Empire.

PERENNIAL FLOWERS

How to Protect Them in Winter by
Experimental Farm Expert

Prairie winters demand protection
for perennial flowers. In order to do
this the less hardy ones should be
given special care by covering the plants
just before freeze-up with three to
four inches of straw litter. This
should be allowed to remain on the
plants until the middle of May.
straw covering aids in attracting
additional snow. Such protection
should be given to Pinks, Pansies,
Hollyhocks, Lupines, Canterbury
Bells and newly planted Peonies. The
latter should have their crowns two
to three inches below the surface but
it is well to bear in mind that an ad-
ditional four inches of straw should be
added after freeze-up. After the first
winter peonies should not require fur-
ther winter protection.

A subject of frequent inquiry along
this line at the Dominion Experimen-
tal Station, Scott, is winter protec-
tion for roses. The method used at
this station for protecting Hybrid
Perpetual and Tea Roses is to tie up
all growth loosely and earth it
around to within two inches of the
top. After the ground is frozen the
whole is then covered with six inches
or more of straw litter. In the
spring the straw litter is removed
a few days before the soil is again
levelled. Following this the branches
are trimmed back about one third,
leaving an outside bud on top but
care is taken to cover such bushes
with canvas or boxes at night when
frosts are expected in the spring.

THING OF THE PAST

The day of the harvesters' ex-
cursions is almost over in the West. The
tractor, the combine and the truck
are revolutionizing the grain farm.
Labor costs are being greatly reduced
and a few men are doing all the
tilling and harvest work, where pre-
viously the harvest and threshing re-
quirements particularly ran as high
as twenty or more men. So far as
Southern Alberta is concerned pre-
sent conditions could hardly be im-
proved on, and the outlook for next year
is most encouraging. The prospects for
1930 were made promising by a good
rainfall, amounting to almost three
and a half inches this fall and we
will no doubt get more moisture be-
fore winter comes.

REPORTER OBEYS

Ben Huckell of the Innisfail Prov-
ince, the new president of the Alberta
section of the Canadian Weekly News
papers Association is authority for
the following directions for the guid-
ance of "cub" reporters. "Never
state a fact you are not certain about
or you may get into libel suits. In
such cases use the words 'alleged', 're-
puted', 'claimed', 'rumored' and so
on." The reporter was much impres-
sed with the proper use of these in-
structions and in writing up a social
event said: "It is rumored that a card
party was given yesterday by a num-
ber of reputed ladies. Mrs. Robinson
gossip says, was hostess. It is al-
leged that the guests, with the excep-
tion of Mrs. Brown, who says she hails
from Bakersfield, were all from here.
Mrs. Robinson claims to be the wife
of Archibald Robinson, the so-called
'Honest Man' trading on Front
street."

When the editor read the report a
whirling mass claiming to be the re-
porter, was projected through a win-
dow and struck the sidewalk with a
dull thud.—Strathmore Standard

VULCAN, ALBERTA

BIG BRANT BAZAAR

Was a Great Success Socially and
Financially. Receipts Were Large

Due largely to the able generalship
of Mrs. Harry Brown, president, Mrs.
F. S. Heckle, secretary, and their wil-
ling assistants, the bazaar given by
the Catholic Women's League of
Brant, on Saturday evening was a
conspicuous success. All evening long
the community hall in which it was
held, was crowded with everyone
spending freely, and enjoying heart-
ily the varieties of entertainment of-
fered. The financial result was lar-
ger than had been anticipated and
the C.W.L. ladies were most appreci-
ative of the generous support accord-
ed them.

There were a number of booths
displaying home-cooking, dressed
poultry, plain sewing and fancy work.
The articles in the sewing booths re-
presented months of preparation, and
some of the work was outstanding,
particularly that done by Miss Mary
McDonald of Blackie. The popular
winner of the raffled Hope Chest was
Miss Margaret McKay, whose lucky
draw was an occasion for much merriment.

A radio had been installed and was
operated by a friend from Vulcan.
The tea tables drew good patronage
and in every department the ladies
are to be congratulated on the suc-
cess of their efforts.

LOCAL HISTORY

Information on the Early History of
Districts Should be Published

A resolution of considerable merit
was passed at a district teachers' con-
vention in another province recently.
It was to the effect that a booklet be
published containing information on the
early history of the district, and that
each teacher be provided with a copy
for use in the school. This has a
very general application to all dis-
tricts.

The foundation of history and geog-
raphy in the junior grades, rests
with the stories and nature of the
surrounding district. If entertaining
ly taught, this information lays a
good foundation for expanding inter-
est in later history and geography work.

Naturally the teacher is rarely fam-
iliar with the human stories of the
opening up of each settlement of the
early settlers, their struggles and
achievements. If she had some au-
thentic interesting material to guide
her, she might create very vivid pic-
tures of the immediate past history of
any western vicinity.

Southern Alberta is rich in pioneer
stories, in outstanding figures that
have contributed to the present sta-
bility and success. There are many
colorful tales of early experiences. If
these facts could be collected, and re-
told in simple vivid style, they would
be useful historically, and would be
of greatest assistance in the schools.

ITEMS OF INTEREST

"Able's Irish Rose." Something
must have made him angry.

The cost of the new Calgary post-
office is placed at \$1,297,000.

The total amount of income taxes
collected in Canada last seven months
was \$63,760,030. The city of Calgary
paid at total of \$1,268,814.29.

A local big game hunter contrib-
uted \$50.00 and costs for shooting the
young deer while back in the hills,
while another had to pay \$10.00 for
the shooting of a swan.—Claresholm
Press.

The Raymond Sugar Factories are
now slicing beets while the harvest-
ing of the tubers is still going for-
ward. If all the beets are taken from
the ground this season—and it seems
likely that they will—the yield is es-
timated at between 60,000 and 70,000
tons. This record supply will enable
the plant to run day and night for
three months, turning out a record
production of sugar.

"Safety First" week was observed
in Calgary by a mass meeting of
school children, who brought out by
verses, songs etc., the principles of
"Stop, Look, Listen." A debate be-
tween Grade VIII pupils: "Resolved,
that cyclists and pedestrians are
more to blame for accidents than mo-
tor drivers and railroad engineers,"
brought a verdict in favor of the af-
firmative.

NOTICE OF SALE

WANTED

WANTED—Glenn, "Old Top," if you
see this, write me. Address: Alice
G. Strictly confidential. All well.
In same old city.

ALBERTA PRODUCTS

At this season of the year when
thoughts are turning to Christmas
and the exchanging of presents it
would be well for the citizens of Al-
berta to remember the efforts of the
Alberta Development Board in its
campaign urging the purchase of Al-
berta Made Goods.

The merchants of the province co-
operate in stocking and displaying Al-
berta Made Products. How can we
expect the retailer to do his part if
the consumers do not take the step in
the right direction and make their
purchases wherever possible of the
products of Alberta's factories.

The manufacturers of the province
are prepared to stand by the quality
of their products and only ask for
business on the merits of their goods.
They make as good, if not better, pro-
ducts as are produced elsewhere.

The farmers of the district know
that part of their revenue comes from
the city and it is only an act of co-
operation for them to buy Alberta
Made Goods in return. Money spent
in our own province comes back to us
again but money spent for goods pro-
duced outside of the province goes
away and keeps on travelling.

It is only by working in harmony
that the greatest good can be accom-
plished. Ask your storekeeper to
show you some of the products of Al-
berta's factories and compare the pri-
ces and values with other manufac-
tures. Let's all work together this
Christmas and support Alberta Made
Products.

The increasing taxes on our virtues
are an awful tax on our virtue.

"The principal product of Kent,"
wrote a boy doing geography "are
Archbishops of Canterbury."

There is a heap of money being
wasted these days in paper, printing
and postage, if other newspapers lit-
ter the waste paper basket as we do
with propaganda sent for publication.
